

# IUScholarWorks Home

## What is IUScholarWorks?

IUScholarWorks is a set of services from the Indiana University Libraries and UITS to make the work of IU scholars freely available and ensure that these resources are preserved and organized for the future. The components of IUScholarWorks provide complementary services and support for you to share your work and advance your discipline online.

IUScholarWorks Repository allows IU departments, institutes, centers and research units to easily make their scholarly materials openly available on the web, centrally archived and preserved for long-term preservation. IUSW Repository is built on DSpace repository software.

IUScholarWorks Journals supports the electronic publication of journals, offering a low-cost solution to administrative and publishing functions of managing a journal. IUSW Journals is built on Open Journal Systems journal management software.

## Repository Services

If you have the following types of materials, we can probably help make them **open access**. [Click for more information](#) (or contact us: [iusw@indiana.edu](mailto:iusw@indiana.edu)):

- Previously published scholarship: articles, conference proceedings, book chapters, books
- Not-published scholarship: technical papers, working papers, presentations
- Data

Direct link for large files: [Transmit Data or Media Files to IUScholarWorks](#)

## Journal services

- Existing journals that you would like to host at IU
- New Journals

The official site for IUScholarWorks services is <https://scholarworks.iu.edu>
