

MDPI Internal Content Access

Purpose

The *MDPI Internal Content Access* instance of **Avalon Media System** is supported by the Indiana University Libraries to provide access for collection management staff within IU to audio and video items digitized through the **Media Digitization and Preservation Initiative (MDPI)**. For public and IU student/faculty/staff access to audio and video collections, including those digitized as part of MDPI, please visit **Media Collections Online**.

MDPI Internal Content Access URL

<https://content.mdpi.iu.edu/>

The screenshot shows the top navigation bar of the MDPI Internal Content Access website. It features the Indiana University logo (Ψ) and the text "INDIANA UNIVERSITY" on the left. On the right, there is a "Sign In" link. Below the navigation bar, the main heading "MDPI Internal Content Access" is displayed, followed by a "Browse" button and a search input field with a "Search" button. The main content area contains a paragraph of text explaining the site's purpose and providing contact information. At the bottom, there is a footer with the Indiana University logo, copyright information, and the Avalon Media System logo.

Sign In

Click the "Sign In" link in upper-right hand side of the page and enter your IU network ID and passphrase (if prompted) for authentication.

Since there is no public content on this site, you will not see any items listed until signing in.

Browsing and Searching

Items in the MDPI Internal Content site can be browsed in the same manner as in Media Collections Online using the facets that appear on the left side of the page for navigation. Please note that you will only have read-only access to items on this site and will only see items you have been authorized to view.

Searchable fields include:

- MDPI Barcode
- Group Key
- Title
- Call Number

Further Information

To request access to a collection, request access for a member of your staff, or for more information please contact [Jon Cameron](#), Digital Media

Service Manager for the IU Libraries, at joncamer@indiana.edu.

There is currently an issue with the system where all segments for a section are initially highlighted. This is a cosmetic bug that does not affect functionality and that will be fixed in the next system upgrade.
