

# Preferred Media Types

## Status

This page is **under development**. It needs to be approved by the infrastructure group.

Media types for which the DLP makes a commitment to preserve functionality (not just the bits):

- Image files: TIFF
- Audio files: WAV, Broadcast Wave (BWF), AES-31 ADL (for describing WAV file relationships)
- Text files: TEI
- Metadata: METS, MODS, DC, EAD
- Generic documents: PDF
