## Retrospective

### What went well?

- For ticket 1170, talking it out at a high level with Drew was a good way to get a roadmap for the ticket in place – Jason

### What did not go well?

- We underestimated points required for fixity – Rebecca & Sadie
- We continue to underestimate the impact that time off has on staff – Will

### What should be done differently in the future?

- Moving forward, make sure that we are examining the effort required for each ticket as we add it to the Sprint and break it down as needed – Rebecca & Sadie
