

Platforms to Support

2012-04-19

Proposed platforms to test and support in our first-year release.

	Windows (XP - 7)	OSX (10.4.+)	iOS (5+)	Linux	Android
Safari		x	x		
Firefox	x	x		x	
IE 8, 9	x				
Chrome	x	x		x	
Android					x

The platforms are prioritized from left to right, so if we have to drop support, we would first drop Android, then Linux, then iOS.
