

PHYDO Retrospective - Sprint 52

Date	11 Aug 2017
Participants	Sabrina Goodpaster William G. Cowan Amol Khedkar Nianli Ma Daniel Pierce Julie Hardesty; Drew, Jason, Sadie, Rebecca

Retrospective

What went well?

- Paired programming was very helpful – Drew
- We were able to better estimate our story points for delivery this sprint - Sabrina

What did not go well?

- When team members do not communicate directly, there can be disconnect – Julie

What should be done differently in the future?

- I would have reached out to team members with knowledge on specific terminology earlier, which could have helped identify, “generation” earlier - Julie
