Retrospective

What went well?

- Getting the PO Backlog Grooming meeting back on the agenda was useful – Will
- Good discussion among the POs about Search feature – Will
- Working to get items able to demo by demo date, despite the fact that this may create minor clean-up work for later, is helpful – Rebecca, Sadie

What did not go well?

- Team is still doing some work on stories outside of the Sprint. We need to make sure we are careful to track time against the Sprint. – Will
- Did not estimate high enough on some story work - Drew

What should be done differently in the future?

- Moving forward we will keep our stories down in a 2 or 4 point range for these one week cycles, to make it easier to realize effort. - Will
