

OAI Metadata for I-Witness collection

OAI Metadata for I-Witness collection

[Project Wiki page](#)
[Public web site](#)

Source data: Production XML files are in the I-Witness [Xubmit](#) repository. While there is a collection-level MARC record, we want to share item-level records via OAI-PMH.

A static snapshot of the Xubmit data as of 11/9/2010, for testing, is [attached](#).

✔ oai_dc

metadataPrefix: oai_dc
target namespace: http://www.openarchives.org/OAI/2.0/oai_dc/
schema location: http://www.openarchives.org/OAI/2.0/oai_dc.xsd
method of generating: [standard MODS->DC stylesheet](#)
sample oai_dc record: [i_witness_dcrecord.xml](#)

❓ try to use [standard MODS->DC stylesheet](#); if this seems to have many problems, see if [TEI to DC for the Indiana Magazine of History](#) works better. Also build on work Matt has done with TEI to oai_dc for the Brevier Reports.

✔ QDC

metadataPrefix: qdc
target namespace: <http://epubs.cclrc.ac.uk/xmlns/qdc/>
schema location: <http://epubs.cclrc.ac.uk/xsd/qdc.xsd>
method of generating: [standard MODS->QDC stylesheet](#)
sample QDC record: [i_witness_qdcrecord.xml](#)

✔ MODS 3.4

metadataPrefix: mods_3.4
target namespace: <http://www.loc.gov/mods/v3>
schema location: <http://www.loc.gov/mods/v3/mods-3-4.xsd>
method of generating: project specific stylesheet: [iwitness_tei2mods.xml](#)
sample MODS record: [i-witness_4.xml](#)

start from [TEI to MODS for the Indiana Magazine of History](#), and adjust from there. Also might get some ideas from the Emory stylesheet linked from [here](#). Also build on work Matt has done with TEI to oai_dc for the Brevier Reports.

If these records look like they're missing vital data, consider finding a way to pull some in from the [collection level MARC record](#).
