

DLF Aquifer Public Metadata Documents

DLF Aquifer Public Metadata Documents

The DLF Aquifer Metadata Working Group has produced the following documentation for sharing within the digital library community. The Working Group welcomes comments on this documentation. Comments and questions can be sent to [any Working Group member](#).

Guidelines

- [Digital Library Federation / Aquifer Implementation Guidelines for Shareable Metadata](#) and [release notes](#), describing how MODS should be used for sharing metadata for use in the Aquifer initiative
- [MODS Guidelines Levels of Adoption](#), connecting recommendations from the *Guidelines* to functions the Aquifer initiative would like to support
- [FAQ for MODS Guidelines Implementers](#)
- [Data Processing for Aquifer Records](#)

Tools

- [MARC to Aquifer MODS XSLT Stylesheet](#)
- [MODS Asset Action Explorer](#)

Reports

- [DLF Aquifer Metadata Institutional Survey Report](#)
- [Future Directions in Metadata Remediation for Metadata Aggregators](#)
- [Report on MODS Levels of Adoption Conformance Across Repositories](#)
- [Lessons Learned](#)

Background and Draft Notes

- [ContentDM to Aquifer MODS](#)
- [EAD to Aquifer MODS](#)
- [Zotero to Aquifer MODS](#)
