

Research Now: Workshop Schedule

Schedule: 2013-2014

The following spaces are reserved for workshop:

- **E174:** Seminar / Discussion
- **Information Cluster 1:** Lab

In most cases, we will start by meeting in room E174 and migrate to the IC 1 when we are ready to start lab, but there will be instances in which we will conduct our entire session in cluster. We will list the location on the schedule below when we deviate from normal. Please check the schedule regularly. We will also *try* to send email reminders.

A [Google Drive folder](#) has been setup in support of collaborative note-taking. If a document for sessions notes has not been created, feel free to create one in the [session notes folder](#).

Dates, times and locations may change depending on extenuating circumstances.

- The remaining schedule is in draft form and can be viewed here: [Research Now: Schedule-In-Progress](#). As sections are finalized they will move into this official schedule page.
- Earlier parts of the schedule have been archived, and can be viewed: [Research Now: Schedule Archive](#). You will find links to seminar notes, readings and related documents on the archive page.

Date	Time	Workshop Topic & Lab	Workshop Leaders / Notes	Location	Assignments
