

Test Media

Supported formats for the first release should include several common file formats and codecs for both audio and video.

Audio

The following formats represent the most common files that might be seen in the wild during the [Release Zero](#) phase.

[WAV](#)

[MP3](#) (VBR codec)

[Quicktime](#) (MOV) (File does not play in the browser)

Video

The master videos below contain examples without an audio track. For tests which need audio the formats below should also be targeted
