

Distribution

1. Indexing

The "Indexing" tab allows the user to create a description of the journal for the purpose of search engine indexing as well as add custom HTML header tags for page headers.

2. Access

Under the "Access" tab, the user can restrict access by subscription, registration, or make all content open access.

3. Permissions

The "Permissions" tab includes the Copyright Notice and Licensing information, as well as the opportunity to reset all permissions retroactively.
