

Documentation

This page provides quick links to all the technical documentation needed by people trying out, installing, maintaining, or using the Avalon Media System. The documentation is separated into four primary categories depending on use: system administration, Avalon development, collection management, and user activities.

If you are new to Avalon, start by visiting the [project website](#) to learn more about the project and the product itself. The website provides the necessary context for deciding which of the documents below you may need to access.

Documentation Quick Links:

- [For Users](#)
- [For Collection Managers](#)
- [For System Administrators](#)
- [For Developers](#)

Miscellaneous:

- [Known Issues](#)
- [Supported Browsers and Platforms](#)
- [Avalon Metadata Profile](#)
