

VAB6984

VAB6984: I wonder if it would be possible to add a "nickname" tag for the prosopography section. Also, I have a Bible verse used as an epigraph at the head of a chapter. Using the floating text tags doesn't seem to work.

```
<floatingText><body><div>  
    Greater love hath no man than this, that a man lay down his life  
    for his friends. - JOHN xv. 13.</div></body></floatingText>
```
