

Sample IIIF Manifest

This sample IIIF Manifest contains the minimum information needed for the segmentation tool.

Notes:

1. The ranges are the segments; note that this includes a top range. I recommend including a top range because in AVALON all the items have a top range and thus the AVALON tools (such as the Structural Metadata Editor that we plan to use) assume that top range.
2. I am not sure we need summary. I assume an empty summary will do. I will try to find out if we need it at all and come back to edit this page with a definitive answer.
3. Same to Metadata
4. Same to Rendering, which I show empty.
