

# 2022-02-14 Avalon User Roundtable Meeting

## Date

14 Feb 2022

## Connection Link

<https://iu.zoom.us/j/84620830059?pwd=bWo3R081M3BtaytFMjZnS0FzQkd2dz09>

## Attendees

- Michael McFarlin - Oberlin
- Josh Westgard - UMD

## Meeting Notes

- Is it possible to hotlink out of resource description fields?
  - Yes, via the "Related Item" field
  - UMD has done custom work to have hyperlinks in the notes field as well
- Oberlin has an issue—supplemental files not being found and error returned instead
  - Michael will put info into the Avalon Slack channel
- Josh reports that UMD is working on file retrieval
  - moving media files from the dropbox into another storage area ("streaming masters")
  - custom development at UMD to reuse Avalon security tokens for streams for file downloads
  - they also want the ability to manage authorizations, token for two week period, and creating the ability to manage and create tokens
  - curator can download at any time, but can generate a token for others for a limited time download
  - UMD is interested in contributing this back once it's completed
- UMD has good experience with AP Trust for preservation
